

# Go to Church Sunday

EVERY man is better for the spiritual improvement he will derive from Church Attendance on Sunday. Then too, there is the mental improvement to be absorbed from masterly sermons that develop our grasp on new thoughts of the day. Subjects which appeal to our intelligence, our emotions and our duty to brother man. The environment of soulful peace, the benediction of rest from our work-a-day activities and the enthrallment of inspiring music are potent attractions to influence the habit of "going to Church on Sundays."

## Trinity Pro-Cathedral

First Avenue and Roosevelt Street  
SUNDAY SCHOOL AT 9:45 A. M.

## Central Christian Church

Bible School at 9:45 A. M.  
Preaching morning and evening, morning subject: "The Bible and the Church." Evening subject: "Do We Believe."  
Special music under the direction of Mr. Bloem.

### ANNOUNCES CAMPAIGN TO ASSIST COUNTRY IN PRESENT UNREST

On behalf of the National Co-operative Re-adjustment association, Governor Thomas E. Campbell announces the inauguration of a great "National Co-operative Re-adjustment Campaign," designed to aid the nation and state more successfully over the uncertain rocks of re-adjustment, and into the path of real progress.

The stated objects of the campaign are:  
First—To alleviate the natural strain incident to a reconstruction, or re-adjustment, period of this magnitude and importance by a systematic campaign of education on pertinent subjects, locally in industrial communities and on a national scale generally, urging the closest cooperation and harmony between employers and employees (capital and labor); at the same time emphatically discouraging (with the intent of permanently halting) extreme radicalism in any form and the now dangerous trend toward the radical disruptor of civilization commonly called "bolshhevism," while promoting Americanization among the foreign element.

Second—To make known in local industrial communities and nationally, individual and organized efforts of both employers and employees (industrial, commercial, agricultural and professional) toward cooperation in the past and something of what may be accomplished now and in the future through a better understanding of one another and greater harmony with the intent of promoting constructive cooperation (thus tending to avoid strikes, lock-outs, over-employment, under-employment and unemployment); promoting better general education, efficiency on the job, thrift, always and home-owning (increased production, greater

efficiency and thrift to aid in effectively combatting the high cost of living); urging loyalty to government, local, state and national; a better understanding of duty and responsibility; striving to create and maintain a spirit of contentment generally and endeavoring to secure the cooperation of all to this end.

The association will maintain headquarters in Washington, D. C., with branches in various parts of the country and representatives in every county of every state in the United States, including the District of Columbia and all territories.

The association is non-partisan and non-sectarian and its motto is "Justice for All." The movement is largely an outgrowth of opinions expressed at the notable Conference of Governors, mayors and federal officials, at the White House, last March, and only pronounced apparent need calls forth the announcement of the association, with the statement that the campaign will continue until the objects have been attained in sufficient degree to warrant its discontinuance.

The association will act unofficially as an organization of citizens and American institutions, in complete harmony and cooperation with all governmental departments, especially the United States department of labor and the various state and local governments.

#### THE SAN CARLOS DAM

A few years ago this fine city of Phoenix was a small village in a desert waste, but today—well you can see for yourself. And what magic or miracle has wrought this change? Of course, we all know it was the Roosevelt dam. But do you know, or have you thought of the fact that neighbor to the Salt River valley is another great valley with the richest of soils and now a desert waste? Do you know that more than two hundred thousand acres of new farms can be added immediately to the state? Do you know that the great wealth of the Florence-Casa Grande valley added to this state will go far toward making Arizona one of the most powerful and wealthy in the union?

All that is necessary is to build the San Carlos dam. It is going to be done now.

You can see how if you will see the beautiful pictures of the project running every afternoon at the fair—mines and minerals building, at 2:15, and at the Columbia at each evening performance during fair week.

Kansas had to import 136,000 farm hands to help her get away with her bumper wheat harvest.

### DREW VISITED NEW MARMON AND LIKES IT MORE THAN EVER

The message of the new Marmon has been brought back to Phoenix by A. L. Drew, service manager for the W. E. Gardner company, state distributors just returned from a three weeks' visit to the Marmon factory in Indianapolis, where he studied the motor of the latest Marmon product. He will be at the automobile show tonight, to answer questions of those who have been waiting for news of the latest creation of the Marmon-Nordyke factory.

Drew is certainly enthusiastic over the new Marmon. He has visited the factory where every part of it is made and has been convinced that it is the last word in automobile construction. "The new Marmon is certainly a wonder," said Mr. Drew last night. "Without a doubt it is the greatest automobile in the world, to my way of thinking. The new car is the most perfect running piece of machinery ever put on four tires. It has the smoothness of operation of an electric and can be throttled from one to seventy miles an hour without a change of gear."

The Gardner company has been able to get an allotment of five cars between now and January 1. Dealers from all over the United States were at the factory, according to Drew's report, begging that cars be sent them at once.

#### SAN CARLOS PICTURES AT THE COLUMBIA

Saturday will be the last of these pictures. Crowds have seen them and pronounce them the best of their kind ever seen in Phoenix.

They are in the interest of the great San Carlos project in Pinal county, Arizona, and depict the great mass meeting and barbecue of August 12 last. The Gila river and the proposed dam site are beautifully shown.

There are many humorous scenes. There are great fields of maize and hygenia and cotton. There is a fine set of views of the famous Casa Grande ruins.

### HEAR THEM at the First Methodist Episcopal Church
